Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the invention relates to a process of separating squalenes, carotenes, tocopherols and sterols from palm oil. The closest prior art of record, Ooi et al., US 6,072,092, discloses similar process. The prior art discloses the elution of carotenes with non-polar solvents while others may be eluted with polar solvents or mixtures thereof. See column 2, lines 25-45 and column 3, lines 3-15. In the instantly claimed process, mixtures of polar and non-polar solvents are used to elute squalenes, carotenes, tocopherols and sterols into separate fractions. See examples 2-16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
